NSPIRATION, A NEED OF LIFE

THE REV. MR. WILES TELLS GRADUATES ELEMENTS OF SUCCESS.

PREPARATION OF BODY IS ALSO A FACTOR

Miss Lavisa Swinford, Valedictorian, Gives Address on "Value of Education—Other Numbers.

Inspiration, preparation and actuation are the three elements absolutely necessary to a well-rounded, symmetrical life, according to the Rev. T. H. Wiles, pastor of the First Baptist church, who addressed the graduating class of the Maryville High school at the annual exercises last night. The program was attended by a fairly large crowd of relatives and friends of the class.

In Mr. Wiles' address "The Romance of Achievement," he told the graduates that inspiration is the fundamental principle of success, and that it enters into our achievements only when we have a love for the better and higher things of life.

The Higher Life.

"The vision of a higher life becomes an inspiration to us," said Mr. Wiles, "and enables us to accomplish the things that we set out to do. We may be taken up with the life that is fascinating, but we will no longer do so if we contrast it with the results of a life that is inspirational."

"After inspiration comes preparation," said Mr. Wiles in speaking of the second element of a symmetrical life. "It is necessary to have a prepared body in order to bring forth that which a person hears, feels and sees.

"And finally there is the element of actuation which carries one onto the real battle ground of service, that leads us out into the world to accomplish something worth while."

Artificial Inspiration.

Mr. Wiles gave an apt illustration of the difference between artificial and natural inspiration. "A mule owned by a negro, became balky and refused to move out of a rut in the road," related Mr. Wiles.

"While the negro was standing beside the animal trying by every means in his power to force the animal to move, a physician came along. He offered to make the mule start on its way, took a hypodermic needle from his pocket and injected some of the contents in the mule's back.

"The mule started out at a terrific rate and the negro watched him until he was out of sight. Then he turned to the doctor.

"'How much worth did you put in that mule's back?' asked the negro.

"'Twenty-five cents worth,' answered the doctor.

"'Here's a dollar,' said the negro. 'Put seventy-five cents worth of that in me so I can catch the mule.'"

Miss Swinford, Valedictorian.

Miss Lavisa Swinford, valedictorian of the class, gave a short, but pleasing valedictory on "The Value of an Education." The invocation was given by the Rev. C. E. Miller, and the presentation of the class to the Board of Education was made by Prof. Robert Magee. Dr. Jesse Miller on behalf of the school board conferred the diplomas. The honors were awarded by Supt. J. M. McDonald. Three numbrs given by the High school orchestra were rendered in a delightful manner.

Luncheon After Exercises.

After the exercises, the class, accompanied by the class sponsor, Miss Mary Rooker, went to Reuillards where a two-course luncheon was served. Miss Marie Landfather, vice-president of the class, on behalf of the class, presented Miss Rooker with a gift as an expression of appreciation of her interest in the senior activities during the year. A speech of acceptance was made by Miss Rooker, and then each member of the class told of the plans made for spending

JOHN KRUCKER IS DEAD

Man Awaiting Trial for Wife Murder Dies From Wounds Received at Time of Tragedy.

St. Joseph, May 26.—John E. Krucker, who was awaiting trial on the charge of wife murder, died at Ensworth hospital here at midnight last night. Krucker received the wounds which led to his death Februare 18, when on a visit to the home of his wife, from whom he had been divorced, he shot her and then turned the weapon upon himself. The tragedy occurred following a quarrel and was enacted before their little girl, who lay sick in bed.

Mrs. Krucker's name was frequently mentioned in connection with the trial of Oscar McDaniel, former prosecuting attorney in St. Joseph, who was acquitted of the murder of his wife. It was expected Krucker at his trial might tell of incidents which led up to the murder of Mrs. McDaniel. His death probably will seal the mystery.

3RD DAY SESSION

DISTRICT EPWORTH CONVENTION COMMITTEES CHOSEN.

WILL CLOSE TOMORROW

Dr. W. F. Burris of Maryville on the Program This Morning—Officers Elected This Afternoon.

The third day's session of the annual district convention of the Epworth Leagues of the First Methodist church are well attended, about eighty delegates from the districts being present.

The Rev. Charles Coke Wood of the White Temple Methodist church of St. Joseph gave the sermon yesterday evening on 'A Hive of Honey Bees.' Other numbers were: solo, the Rev. Hamilton of Tarkio; and duet by the Rockport chapter.

At the business session yesterday afternoon the following committees were appointed:

Committee on location for the next convention: Mrs. L. P. Taylor, Tarkio; Miss Olga Lee Rodman, Quitman, and Roy Hinton, Pickering.

Resolutions committee: The Rev. C. S. Dayhoff, Pickering; Miss Alta Bertram, Mound City; and Miss Eula Strader, Maryville.

Nominating committee, Mrs. L. A. Judy, Mound City; the Rev. Lane Douglas, Mound City, and Miss Lucy Stiles, Rockport.

This morning the watch service was led by the Rev. C. S. Dayhoff. Devotional services were held by Mrs. Walter Culverson of Tarkio. Music and a reading were given by the Maryville chapter, and Miss Hickel of Rockport, gave a reading.

Two addresses were given by the Rev. J. J. Cokely of Westboro and by Dr. W. F. Burris of Maryville. The Rev. Lane Douglas of Mound City, gave an address on "Social Service."

This evening's program will be in charge of the Skidmore chapter, and election of officers and other routine business will be cleared off the slate today.

Tomorrow morning, May 27, a sunrise prayer service will be conducted by Harry Fay of Tarkio. The convention sermon will be given by Rev. Harrison of Skidmore at the usual worship hour.

Miss Garnet Praiswater of Burlington Junction, will lead the devotional service tomorrow afternoon, meeting at 1:45 o'clock. There will be a solo by Merill Crider of Maitland and a paper on the advantages of a Junior League to an Epworth League by Miss Irene Cokely of Rock Port. This will be followed by a solo by Miss Mary Goodpasture of Maitland. An address will be given by a representative of the National Deaconness Home of Kansas City.

The Epworth League service tomorrow evening will be led by L. A. Judy of Mound City. Installation of officers will take place. Rev. Hamilton of Tarkio will give the evening sermon.

Miss Marie Landfather.

Miss Lillian Carpenter.

Miss Leeta Wray.

William Van Cleve of the mid-year class of 1917, son of Mr. and Mrs. W. C. Van Cleve, made the highest grades of any student in the mid-year and spring graduating classes for the High school course. This announcement was made by Supt. J. M. McDonald at the graduating exercises at the High school last night in announcing the scholarships awarded by various schools for scholarship during the High school course.

Mr. Van Cleve, who made an average of 95.77 was awarded two scholarships; one offered by the State Normal school of Maryville to the student making the highest grades during the last school year and the one offered by the University of Missouri to the individual making the highest grade for the course. The scholarship offered by the State Normal school is good for any three consecutive quarters after September, 1917, and the University of Missouri scholarship is good for the school term, 1917-1918 or for the school term 1918-1919. Mr. Van Cleve will probably attend the Normal next year and then go to the University of Missouri in 1918-1919.

Miss Mildred Bellows, daughter of Mr. and Mrs. C. D. Bellows, of the mid-year class, 1917, made the next highest honors with an average of 95.33. Miss Bellows was offered the scholarship of the Missouri College Union, which includes nearly every major college in the state, but she declined the honor, having made all arrangements to attend Northwestern University at Evanston, Ill., next year.

The third choice of scholarships went to Miss Lavisa Swinford of the spring class of 1917, daughter of Mr. and Mrs. J. W. Swinford, whose average was 92.03. Miss Swinford will attend Tarkio College, Tarkio, next year.

A scholarship offered by the girl's colleges of the state to the young woman making the highest average for the year was not awarded since it would have gone to Miss Bellows.

30 KILLED IN TORNADO.

Property Loss in Tornado in Kansas Will Reach Millions.

Special to The Democrat-Forum.

Hutchinson, Kan., May 26.—At least thirty are known to have been killed and nearly one hundred injured, many fatally, in the tornado late yesterday that swept through Harvey and Sedgwick counties. The property loss will reach millions.

Mr. and Mrs. Charley Moore of Ravenwood visited over night with Mr. and Mrs. W. G. A. Edwards.

THE H. S. FACULTY

THE TEACHERS DEFINITELY ANNOUNCE PLANS FOR SUMMER.

MANY TO ATTEND SCHOOL

A Few Will Teach and Others Will Spend Time in Rest and Recreation.

The members of the High school faculty have definitely announced their plans for the summer. Some of them will attend school, others will teach and others will spend the time in rest and recreation.

Miss Edith Wren left yesterday afternoon for Chicago where she will spend some time visiting friends before returning to her home in Chilhowri, Va., where she will remain for the summer.

C. J. Burger left yesterday afternoon for Kansas City, where he will confer with teachers for the faculty of the Cimarron High school at Cimarron, Kan., for next year.

Coach L. J. Schultz left last night for his home at Cape Girardeau where he will attend the Normal school and visit his parents.

Prof. R. M. Magee will leave in a few days for his home at Warrensburg, where he will attend the Normal school.

Miss Lois Halley will leave shortly for Columbia where she will take an advanced course in the University of Missouri.

Miss Mary Rooker left this morning for her home in Triplett, Mo., where she will spend the summer with her parents.

Miss Dora Carpenter will assist in the Home Economics department of the State Normal school at Maryville for the summer.

Miss Alicia Keeler will visit her brother, Capt. John P. Keeler, who is stationed at the army recruiting station at Peoria, Ill., until about June 15. Then she will attend Chicago University.

Supt. J. M. McDonald will remain in Maryville, having accepted a position as teacher of mathematics at the State Normal school. At the close of the school term Mr. and Mrs. McDonald will visit relatives.

Miss Laura Hawkins will spend a part of her vacation in Colorado, possibly attending the University of Colorado at Boulder.

WILL JOIN BOY SCOUTS

Twenty-two Youngsters Have Already Signified Intention of Joining Troops.

Twenty-two boys have so far registered as applicants to become members of the Boy Scout organization, which was started at the Christian church last Sunday.

The organization is for the boys of Maryville, irrespective of church affiliations. The requirements are that they must be more than twelve years of age and that they obey the rules of the organization.

The first meeting of the boys who have already signified their intention of joining the troops will be held at the Christian church at 3 o'clock Sunday afternoon. At this time the first troop organization will be completed and arrangements will be made for uniforms and other supplies.

Application will also be made for authority to operate under the rules of the National organization. The annual dues will be 25 cents. All boys who love out-of-door life are urged to join a troop. They must do so by applying to A. M. Crooke.

STARTS RECORD LIBRARY

Ross Wade Will Lend Edison and Victrola Records to Members of Association.

Ross Wade, son of Mr. and Mrs. O. P. Wade, has started a Victrola and Edison record library at the Holmes Jewelry store and will from now on lend records of all kinds to those belonging to the association.

In order to become a member of the record library association it is necessary to pay $1 a month. Then as many as five records at a time may be taken to the home and kept not more than a week. Damages will be paid for by the person who has taken out the records.

Mr. and Mrs. Edward Keck entertained Dr. and Mrs. Will Wallis, Jr., at 6 o'clock dinner last night at the Edwards' Cafe.

GREAT RAID ON LONDON

Sixteen German Areoplanes Attack City Killing Seventy-six Persons.

Special to The Democrat-Forum.

London, May 26.—The greatest air raid ever made by the Gerfans in England took place last Friday when sixteen aeroplanes attacked London, and killed seventy-six persons. News of this mighty effort was given out officially today. Of these killed twenty-seven were women and twenty-three children. Forty-three women and nineteen men wounded. Three aeroplanes were shot down.

Later dispatches say that seventy-four were wounded. The casualties inflicted were greater than in any previous air attack against England.

ATTACKED BY SUBMARINE.

Panama City, May 26.—Passengers on the French steamship, Haiti, reported that the ship was attacked twice by a submarine shortly after leaving Bordeaux, but it successfully eluded the submarine.

FATE KNOWN SOON

RUSSIAN WAR MINISTER KERENSKY ON WAY TO THE FRONT.

SITUATION IS GLOOMY

Question Arises As to Who Shall Control — The Pacifists or the Romanoff Forces.

Special to The Democrat-Forum.

London, May 26.—Every indication today pointed to the fact that the hour is at hand when the fate of Russia will be definitely known. There has been much activity among the Russian military authorities lately and War Minister Kerensky is on his way to the front. Reports coupled with the information that anarchy prevails in some parts of Russia have led to a gloomy view of the Russian situation.

The big question that arises in the mind of the British and French as the decisive moment approaches is "Will the program of the pacifist forces in Petrograd win out in their struggle for separate peace, or will the growing dissensions among the Russian political leaders themselves encourage the old Romanoff regime to attempt a counter revolution?"

TELEPHONE GIRLS ARE OUT

After Conference With Directors of Peoples' Telephone Union They Leave Places—6 Jobs Open.

The seven telephone operators employed by the Peoples' Telephone Union at Maryville, walked out at 3:30 o'clock this afternoon following a conference with the directors of the company, Albert Watson, A. H. Hughes and Ed Hamlin.

The session was held behind closed doors and the girls refused to give out the particulars, but it is presumed that the board refused to take sides with the girls in their demand for an explanation from Ed Moore, the lineman.

The girls struck last Saturday and were out two hours, consenting to go back to work one week so that Moore could prove that a man had entered and left the exchange room from the roof adjoining the exchange building.

After the conference, the girls left the office and Ed Moore and Mrs. Mina Gett are holding down the six girls' jobs. Mr. Moore said that six positions were open at the exchange.

Miss Erma Green has accepted a position at the Graham store and began work there today.

Misses Augustus and Anna Eckhouse went to Conception to visit over Sunday with relatives.

Miss Elsie and Gertrude Smith of Maryville are visiting over Sunday with Miss Flo Kidd of Bedison.

"GAG" PROVISION TO BE REJECTED

THE SENTIMENT IN BOTH HOUSES AGAINST THIS MEASURE.

A NEW COMPROMISE TO BE AFFECTED

Conferees Agree to Forbidding Publication of Certain Kinds of Information of Use to Enemy.

Special to The Democrat-Forum.

Washington, May 26.—After getting opinions on censorship by a survey of the sentiment of both houses today authorities declared with confidencec that the compromise "gag" provision was doomed to certain rejection. Even friends of the measure admitted that the prospects for its adoption were anything but bright.

A new compromise on the censorship provision forbidding the publication of certain kinds of information of use to the enemy, but limiting the authority of the President to prescribe censorship regulations was agreed to by the senate and house conferees this afternoon.

Have Unearthed A Plot.

Norfolk, May 26.—The Department of Justice agents believe that the shooting of the naval reserve guard here uncovers a plot to destroy the radio plant. Several are under arrest.

Wants Spies Seized.

Washington, May 26.—The President issued orders for the seizure of the interned German spies Odenwald and Presidente at San Juan, Porto Rico.

The attention of both the house and the senate is at present concentrated on the Gore-Lever food production bill, the first of the administration measures designed to solve the food problem. The prospects for a vote are uncertain, but there were indications that it might be disposed of early next week by both houses.

Militia Losing Men.

Washington, May 26.—In spite of the vigorous efforts to recruit the National Guard regiments not in the Federal service to their full war strength, official figures today show that from May 10 to May 20 the militia lost 869 officers and men.

Will Strike Out Auto Tax.

Washington, May 26.—The Senate finance committee voted to strike the automobile tax and the Lenroot surtax from the $100,000,000 revenue bill. The committee will recommend the substitution of the license fee for the auto tax.

CHAMPAGNE FIGHT CENTER

French Made Further Progress in District — Minor Engagements in British Front.

Special to The Democrat-Forum.

London, May 26.—Only minor fighting occurred on the British front during the night, the war office reported. The British on the Arras line took advantage to strengthen and line up their new positions along the Scarpe river.

Champagne Fight Centers.

Paris, May 26.—The Champagne district was the center of the fighting on the French front last night, the war office announced today. The French made further progress in that district, and also repulsed two German counter attacks.

To Visit Relatives.

Fannie and George Pfeifer, who are attending school at the St. Patrick's Catholic school went to Conception last night to visit over Sunday with relatives.

Buys Famous Trotter.

Dr. J. L. Felix and F. F. Brockaway have purchased Mabel, a famous trotting horse and are having him shipped from Lexington, Ky., to Maryville, where they will train him for the track. Mabel's time is 2:19¼.

Mrs. Ed Hamlin, who is ill at St. Francis hospital is reported improving.

Everett Houchens will visit over Sunday in Ravenwood.

THE WEATHER.

Genarally fair and cooler tonight and Sunday.

TO RECRUIT 4TH REGIMENT

Effort Will Be Made to Bring National Missouri Guard to Full Strength Before June 5.

Vigorous efforts will be made to recruit the Fourth regiment, N. G. M., to war strength before the registration for draft, June 5, and all those who are liable to draft and who would prefer to serve with their home organization are urged to enlist before that date.

Those eligible to draft cannot be enlisted in the national guard after they have registered. Members of the national guard are required to register, the same as other civilians, but will be exempted from the draft when it is shown they are active members of the state units.

The advantage of enlisting in the national guard is that a man will know the organization to which he is to be attached, while in the draft he may be assigned to a regiment in the regular army or sent to the navy, among utter strangers. Those who join their home organizations always are kept in touch with home, it is argued.

FERTILIZER COMPANIES CONFER.

Columbia, Mo., May 26.—In order that the farmers of Missouri may procure the amount of fertilizer necessary to increase their crop yields in accordance with the food preparedness movement, representatives of twenty fertilizer manufacturing concerns have been in conference with officials of the College of Agriculture of the University of Missouri.

The purpose of the conference was to determine available sources of commercial fertilizer, the kinds best suited to Missouri farms, and the transportation facilities for handling the supply.

"The need of commercial fertilizer is greater now than ever before, on account of the necessity of producing a large crop," Dean F. B. Mumford of the College of Agriculture, chairman of the state council of defense, declares. "The problem is to obtain a supply of the proper kind suitable to Missouri soils and to arrange for its transportation."

The College of Agriculture of the University is furnishing the farmers of the state any information which they may desire upon their own particular problems of increasing their crop yield as a part of its work in food preparedness. No charge is made for the information.

QUESTIONS ASKED

INSTRUCTIONS ON ANSWERING REGISTRAR'S QUIZ, JUNE 5.

WANT DEFINITE ANSWERS

Gives Information on Qualifications for Naturalized Citizens and Other Points of Interest.

Instructions explaining in detail how a man must be prepared to answer the registrar's questions will be posted at each registration place and are as follows:

"Questions will be asked for you to answer in the order in which they appear on this paper. These questions are set out below with detailed information to help you answer them.

"Do not write on, mark, or otherwise mutilate these instructions. Do not remove them. They should be carefully read so that you will have your answers ready when you go before the registrar.

"All answers will be written on the registration card in ink by the registrar, who should be careful to spell all names correctly and to write legibly.

"1. Name in full. Age in years.

"This means all your names spelled out in full.

"State your age today in years only. Disregard additional months or days. Be prepared to say '21' or '25,' not '25 years, 3 months,' or the like.

Ask Home Address.

"2. Home address.

"This means the place where you have permanent home, not the place where you work. Be prepared to give the address in this way, 232 North Main street, Maryville, Mo., that is give number and name of street first, then town, then county and state.

"3. Date of birth.

"Write your birthday (month, day and year) on a piece of paper before going to the registrar and give the paper to him the first thing. Example: 'August 5, 1894.'

"If you do not remember the year, start to answer as you would if someone asked you your birthday, as 'August 5.' Then say, 'on my birthday this year I will be (or was)—years old.' The registrar will then fill in the year of birth. Many people do not carry in mind the year they were born. This may be obtained by the registrar by subtracting the age in years on this year's birthday from 1917.

"4. Are you (1) a natural born citizen; (2) a naturalized citizen; (3) an alien; (4) or have you declared your intentions to become a citizen (specify which)?

"(1). If you were born in the United States, including Alaska and Hawaii, you are a natural-born citizen, no matter what may have been the citizenship or nationality of your parents. If you were born in Porto Rico, you are a citizen of the United States, unless you were born of alien parentage. If you were born abroad, you are still a citizen of the United States if your father was a citizen of the United States at the time you were born unless you have expatriated yourself.

Final Papers Make Citizens.

"2. You are a naturalized citizen if you have completed your naturalization; that is, if you have 'taken final papers.' But you are not a citizen if you have only declared your intention to become a citizen (that is, if you have 'only taken out first papers'); in the latter case you are only a 'declarant.'

"You are also a naturalized citizen if, although foreign born, your father or surviving parent became fully naturalized while you were under 21 years of age, and if you came to the United States under 21.

"3. You are a declarant if, although a citizen or a subject of some foreign country, you have declared on oath before a naturalization court your intention to become a citizen of the United States. Receipt from the clerk of the court of the certified copy of such declaration is often called 'taking out first papers.' You are not a declarant if your first paper was taken out after September 26, 1906, and is more than seven years old.

"4. You are an alien if you do not fall within one of these three classes above mentioned.

"5. Where were you born?

"First name the town, then the state, then the country, as 'Columbus, Ohio;' 'Vienna, Austria;' 'Paris, France;' 'Sofia, Bulgaria.'

"6. If not a citizen, of what country are you a citizen or subject?

"This need be answered only by aliens and declarants. Remember that a 'declarant' is not yet a citizen of the United States. If an alien or declarant, state the name of your country, as 'France,' 'Japan,' 'China,' etc.

"7. What is your present trade, occupation, or office?

"This does not ask what you once did, or what you have done most of the time, nor what you are best fitted to do. It asks what your job is right now. State briefly, as 'farmer,' 'miner,' 'student,' 'laborer (on farm, in rolling mill, in automobile, wagon, or other factory;' 'machinist in automobile factory,' etc. If you hold an office under state or federal government, name the office you hold. If you are in one of the following offices or employments, use one of the names hereafter mentioned:

"'Custom house clerk,' 'employed in the transmission of the mails,' or 'employed in an armory, arsenal, or navy yard,' 'mariner, actually employed in the sea service of citizen or merchant within the United States.'

"8. By whom employed? Where employed?

Must State Employment.

"If you are working for an individual, firm, corporation, or association, state its name. If in business, trade, profession, or employment for yourself, so state. If you are an officer of the state or federal government, say whether your office is under the United States, the State, the county, or a municipality. In answer to the question as to where you are employed, give the town, county and state where you work.

"9. Have you a father, mother, wife, child under 12, or a sister or brother under 12, solely dependent upon you for support (specify which)?

"Consider your answer thoughtfully. If it is true that there is another mouth than your own which you alone have a duty to feed, do not let your military ardor interfere with the wish of the nation to reduce war's misery to a minimum. On the other hand, unless the person you have in mind is solely dependent on you, do not hide behind petticoats or children.

"10. Married or single (which)? Race (specify which)?

"This does not ask whether you were once married, but whether you are married now. In answer to the question as to your race, state briefly whether 'Caucasian,' 'Mongolian,' 'negro,' 'Malayan, or 'Indian.'

11. What military service have you had? Rank? Branch? Years? Nation or State?

"No matter what country you served, you must give complete information. In answering these questions, first name your rank, using one of the following words: 'Commissioned officer,' 'non-commissioned officer,' 'private.' Next, state branch in which you served in one of the following words: 'Infantry,' 'cavalry,' 'artillery,' 'medical,' 'signal,' 'aviation,' 'supply,' 'marine,' 'navy.' Next, state the number of years' service, not counting time spent in the reserve. Finally, name the nation or state you served. If you served under the United States or one of the States of the United States, name your service in one of the following terms: 'National Guard (of such and such a state),' 'militia (of such and such a state),' 'volunteers of United States,' or 'regular army (navy) of United States.'

Exemptions Provided For.

"12. Do you claim exemption from draft? specify grounds.

"Because you claim exemptions from draft, it by no means follows that you are exempt. For the information of the War Department you should make a claim now if you intend to prosecute it. Some persons will be exempted on account of the fact that they have relatives dependent upon them for support. Our answer touching these things will be important in supporting the claim you now intend to make in your answer to the present questions. Be sure, therefore, that the grounds you now state are in conformity with your answers to questions 7 and 8. In stating grounds you claim as exempting you, use one of the following terms: If you claim to be an executive, legislative, or judicial officer of the state or nation, name your office and say whether it is an office of the state or nation. If you claim to be a member of a religious sect whose creed forbids its members to participate in war in any form, simply name the sect. If you are employed in the transmission of the United States mails or as an artificer or workman in an armory arsenal, or navy yard of the United States, or if you are a mariner employed in the sea service of any citizen or merchant within the United States, so state. If you are a felon or otherwise morally deficient and desire to claim exemption on that ground state your ground briefly. If you claim physical disability, state that briefly. If you claim exemption on any ground, state your ground briefly."

Dr. and Mrs. C. A. Bone were guests Sunday of Mr. and Mrs. Lee Teson of Skidmore.

ARE EXPERIMENTING NOW

When Corn is Bred That Will Stand Spring Frosts, King Corn's Reign Will Be Extended.

Washington, D. C., May 26.—In this age of wonderful achievements, a frost-proof corn is among the possibilities of attainment. When a corn is bred that will withstand spring and fall frosts and grow at low temperatures, like rye, the reign and territory of King Corn will be extended and his powers increased.

Recent work of the Office of Corn Investigation, Bureau of Plant Industry, U. S. Department of Agriculture, indicates the possibility of producing varieties of frost-proof corn and varieties that will continue growth at low temperatures. Some kinds of corn have been found to withstand freezing, both in the spring and in the fall, and afterwards continue to grow. Still more encouraging is the fact that some individual plants of these hardy varieties are more enduring than other plants of the same variety.

At the first signs of spring, with patches of snow still on the ground, seed of these varieties has been planted and has shown ability to withstand frozen ground and spring frosts and ultimately to yield well. Planted in February, 1917, plants which were several inches high withstood a freeze of March 5, which froze the ground to a depth of two inches.

Of still more importance than the possibility of producing frost-proof corn is the possibility of producing varieties of corn that will continue to thrive and produce grain at lower temperatures than existing varieties. There is much territory with long frost-free periods, where, during nights or for several weeks during the growing season, temperatures remain too low for ordinary varieties of corn to grow.

BOYS WOULD LIKE WORK

Federated Commercial Club President Has Many Applications for Jobs in Country.

Farmers who want boys to work on the farm for the summer would do well to write to James Houchin, president of the Missouri Federation of Commercial clubs, at St. Louis. Mr. Houchin has written a letter to Secretary E. M. Claypool of the Maryville Commercial club asking him to assist in finding places for boys who are anxious to don the overalls and jumpers more for the experience than for the money to be gained from the work.

Mr. Houchin mentions especially a young man who will be graduated from the College of Agriculture at Columbia in June, and who with two companions, would like work for the summer. These boys have tried to enter the army but have been rejected for some physical defect.

If any farmers are interested they may communicate with E. M. Claypool, secretary of the Maryville Commercial club or with James Houchin at St. Louis.

Filed Registration Card.

Gilbert R. Crossan of Wauneta, Wyo., filed his registration card with county clerk Yeomans today.

Mr. and Mrs. James Colvin left this morning for Kansas City to visit their son Oakley Colvin. Mrs. Colvin will also go to Maysville, where she will visit her brother, W. L. Smith.

Miss Opal Younger of Maitland and Miss Violet Hudgens of Graham, are the guests of Mrs. Mattie Hudgens and Miss Ona Hudgens of Maryville.

Mr. and Mrs. John Judy and Charley Talbott of Graham were among the out-of-town people in Maryville yesterday.

Mrs. R. H. Campbell of Guilford left Tuesday for a visit with relatives in St. Louis.

ASSESSMENT SCHEDULES

Township Assessors and County Court Meet to Decide on Tax Values for This Year.

A meeting of the assessors of the townships of the county was held in the county court room this afternoon for the purpose of fixing the schedules for this year's assessments which will commence June 1. Part of the schedule agreed on at press time this afternoon was: Horses, mares and geldings, 33 1-3 per cent of value; $10 for each $1 service fee on stallions and jacks; mules 33 1-3 per cent; sheep $3 a head; hogs, $2 per 100 pounds.

The county court, Judges Blackford Hepburn and Schmidt, were in attendance at the meeting which was attended by the following assessors: Fred Smith, Polk township; Truman Kellogg, Grant; B. P. Jackson, White Cloud; George Coulter, Atchison; Clyde Goodpasture, Hughes; Hugh Ellis, Washington; Guy Cooper, Independence; J. F. Godsey, Union; Holmes Yates, Nodaway; and O. E. Bradley, Lincoln.

The assessors wish to urge the people to have the list of their property ready by the time they will call on them. It will save considerable time both for the person and the assessor.

Return from Jefferson City.

Prof. G. H. Colbert of the State Normal School and County Superintendent Bert Cooper, returned this morning from the state meeting of county superintendents at Jefferson City. Prof. Colbert gave a course in mathematics during the week to the county superintendents. P. G. Holden of the International Harvester Company conducted a course in agriculture and corn and Supt. Bert Cooper attended this session.

Ray Davis Visited Here.

Ray Davis of Chicago, formerly secretary of the Standard Poland-China Record association, was in Maryville Saturday, after his automobile, which he will take to his home in that city. Mr. Davis is now assistant secretary of the American Record association.

Medals to Be Exhibited.

The medals won by the Maryville High school boys at the Trenton meet May 12 have arrived and will be on exhibition at the Holmes Jewelry store in a few days.

Leaves for Iowa.

Oswald Thorgesson of the Graham store will leave Sunday for Decorah, Ia., where he will take charge of another one of the chain stores owned by the Graham company.

Miss Ethel Winters of Sheridan is visiting with Miss Bertha Woodard.

Every one had a good time and a number expressed a regret that Miss Donaldson will not be with them another year.

CHEAPEST FOODS

MILK AND DAIRY PRODUCTS ARE MOST ECONOMICAL.

PREFERABLE TO MEAT

"Don't Buy Meat Until You Have Purchased Three Quarts of Milk A Day," Is Good Advice.

"Do not buy meat until you have bought three quarts of milk a day," is the advice of one of the foremost American authorities on nutrition. This applies to a family of two adults and three children.

The advice is good, according to L. S. Palmer of the Missouri College of Agriculture, because milk at 9 cents a quart, butter at 45 cents a pound cheese at 30 cents a pound, and cottage cheese at 15 cents a pound are still by far the cheapest human foods from animal sources.

The ration per individual for the civilian need not exceed 2,500 calories of energy and 2.5 ounces of protein a day, according to the British Food Controller in a statement published February 1, 1917. Three and one-half quarts of milk, or one pound, three and one-half ounces of cheese, costing 32½ and 35½ cents, respectively, will furnish this amount of energy, whereas it would be necessary to buy nearly two pounds of the cheapest cut of fresh pork, containing considerable fat, at a cost of 45 cents to 50 cents, to obtain 2,500 calories of energy.

As an economical source of protein it is interesting to find that 10 cents worth of cottage cheese, 16½ cents worth of cheddar cheese, and 18 cents worth of milk, at the foregoing prices per pound will furnish 2.5 ounces of protein. The cheapest meat protein one can buy is lean veal steak and it is necessary to buy 25 cents worth to obtain 2.5 ounces of protein. Eggs at 35 cents a dozen are practically on a par with lean veal. Nine eggs are required to furnish 2.5 ounces of protein.

In addition to their economy dairy products have the following points in their favor: (1) There is no waste connected with their use in the household; (2) They contain valuable salts; (3) They contain other invaluable food substances which many other foods contain either in much smaller quantities or not at all.

Only two deaths in fourteen years is the remarkable record of health among the children in the Odd Fellows Home at Liberty.

The oldest couple in the vicinity of Barry, Clay county, are Mr. and Mrs. Dan Carpenter, aged 92 and 86. They have been married more than 63 years.

Wheat in Clay county is rated at 60 per cent by the official crop observer. Much corn will have to be re-planted, but the acreage is 15 per cent greater than usual.

A fatal explosion was the result when a fire was started with kerosene in the postoffice stove at Mt. Moriah, one morning last week. The postmaster, S. C. Carpenter, was the victim and died 48 hours later.

A barn on the Geo. Taylor farm near Ridgeway was destroyed by fire one night last week. There was enough grain in the building to bring the loss up to $3,000.

The corn that was planted before the cold rains will have to be planted over. It rotted in the ground.—Old Chip, Rayville correspondent of the Richmond Missourian.

A wagon load of corn was sold at Blythedale by Henry & Buntin that brought $88.28, and even at that they declare the wagon wasn't full.

At the Roy Mullins farm there is a cat with seven kittens that took a hen's nest for a home. Biddie made up with the kittens and now the hen and cat take turns hovering them.—Blythedale items in Bethany Republican.

Right Now— PEARL for Screens!

RIGHT now you are beginning to think about screens—so now is the time to investigate G&B PEARL Wire Cloth—aristocrat of all screen materials. This material is the best wearing and best looking screen of its kind. It so far outlasts painted and galvanized cloths that there is no comparison.

The reason is simple. Rust, not wear ruins screens. G&B PEARL Wire Cloth is as near rust proof as metal can be made. That's the whole story. It requires no paint—no repairs and is the best looking material that ever screened a porch or door or window. Clean and sanitary, too.

There are lots of screens that *look* like PEARL but don't *wear* anywhere near the same. So—play safe—see us. We sell genuine G&B PEARL with the 2 Copper Wires in the Selvage and the G&B Round Tag on every roll.

PAYROLL OF ARMY

Big Task Getting Money to Uncle Sam's Troops.

RATES HIGH UNDER NEW LAW.

Biggest Pay of Any Officer In the Field Is That of Lieutenant General, Which Is $11,000 a Year—United States Aviation Force Offers Wide Field and Is Remunerative.

Washington.—Uncle Sam for the first time in nineteen years is getting ready to pay a big field army. The army on the border was designated as a departmental force. With 2,000,000 men scheduled to serve with the colors just as soon as they can be obtained, a big job faces the quartermasters at each of the six department headquarters, and the finance division of the depot here.

The finance division of the depot in Washington is under the direction of Major George C. Barnhardt. It pays off all retired officers and soldiers under the war depot in the city, some in the Philippines and some in Texas. Already it has a big task, and with the increase of the army it will be loaded down with work.

The highest pay of any officer in the field is that of lieutenant general, which is $11,000 a year. There is no active lieutenant general now, however. Generals Miles, Bates and Young, who reached that rank, are all retired.

The pay of a major general is $8,000 a year at the time of his appointment, and he gets a 10 per cent increase each five years. This 10 per cent increase each five years also applies to brigadier generals, colonels, lieutenant colonels, majors, captains, first lieutenants and second lieutenants.

The pay of a brigadier general is $6,000 a year; a colonel, $4,000, and lieutenant colonel, $3,500. Other salaries for line office are major, $3,000 a year; captain, $2,400; first lieutenant, $2,000; second lieutenant, $1,700.

First and second lieutenants are very much in demand. Examinations are being held in many parts of the country to fill up the ranks of lieutenants in order that the big army of recruits may be drilled.

The aviation corps, which offers a wide field and which is to receive much attention, in addition to opportunities for service, is attractive from the standpoint of pay.

While on duty that requires him to participate regularly and frequently in aerial flights, each duly qualified military aviator receives an increase of 75 per cent over the salary which the pay of his grade entitles him to.

Chaplains appointed to the army will receive $2,000 a year, the pay of a first lieutenant.

Privates receive $15 a month. In case they are sent to Europe they will get an increase of 20 per cent or $18 per month. A certificate of merit entitles a soldier to $2 a month more, and there is yet an additional sum for expert riflemen, sharpshooters and marksmen. Cooks receive $30 a month.

GROWS HAIR FOR GIRL.

Man Arrested Tells Story About Accident to Daughter.

Sacramento, Cal.—Because his little daughter two years ago, when she was but three years of age, fell into the fire and burned her scalp to a crisp, so that hair never again will grow thereon, Henry Hamilton of Idaho, now working on a nearby ranch, is growing a luxuriant head of hair, it being his idea when he returns home to have the hair cut and made into a wig for his little girl.

The story came out when Hamilton, who had been arrested while on a visit to this city, was questioned by Max P. Fisher as to the cause of the flowing locks.

Hamilton said he had come to California to work during the winter because he could not get steady employment in Idaho during the cold weather. He added he expected to return home in a few weeks and prepare the wig for which he has been undergoing ridicule because of his long hair. After his story had been verified he was released.

Almost 1,000 In Family.

Hiawatha, Kan.—The biggest family in this country has almost 1,000 members. It is at Reserve, nine miles north of here. Reserve is a small town of 200 or more people with an average Kansas population in the country surrounding for an area of six miles. Yet in the town and the entire area of country there are not more than ten families who are not related to each other by ties of blood or marriage.

T. J. Tobin, E. H. Bearce and E. A. Baker of Burlington Junction were among the out-of-town people registered at the Hotel Bainum yesterday.

Mrs. Emma DeMoss and two children of Stanberry are the guests of Mrs. DeMoss' parents, at Guilford.

Guy Cooper and Glen Woodburn of the Gaynor neighborhood were city visitors today.

D. Mozingo went to Kansas City Thursday for a few days' visit with relatives.

Mrs. Eva Reaksecker of south of Maryville is ill at the St. Francis hospital.

Dr. E. L. Crowson and son, Eugene, of Pickering are in Maryville today.

To Attend Normal.

The teachers of Barnard school have packed their grips for their summer vacations. However we understand that their summer vacations will be spent in summer school at the Normal at Maryville. Prof. Pierce left Wednesday for Worth for a few days visit with his folks before entering school. Miss Noblet is spending a few days with her parents at Graham. Miss Coler will be at her home in the country until school opens as will Miss Armstrong.—Barnard Bulletin.

Rainfall Was .45 Inches.

Yesterday's spasmodic downpour which was preceded and followed by a drizzling rain amounted to .45 of an inch according to the measurement taken by J. R. Brink, weather observer. Chilly weather and clouds continue to prevail in this section today.

THE LATEST STYLE CHALMERS JUST RECEIVED;

Every Inch a Quality Car

This Chalmers of today is a car any man—millionaire or miner—proudly may own. For it not only acts quality, but looks quality.

$500 more buys no more quality than you can get in this Chalmers. Possibly more car—yes, but more quality—no.

And why should anyone want a heavier car? These are days to be sensible in purchasing. Remember a heavier car costs more to run.

It is well, to bear in mind that $500 less places you in the dangerous position of buying a skimped or "starved" automobile. To pay $500 less is to postpone the day when you will own a quality car.

Just let us punctuate a few remarks about the Chalmers. Take the wheelbase—117 inches. Plenty of size there. Then the 5-inch frame. No weaving of body or frame now in crossing car tracks or turning a corner. Instead, severe rigidity—so severe that squeaks, rattles or chassis noises are not audible.

Underneath the rear seat a heavy, formidable rear axle. Overhead a Pantasote top that comes close to finality—and with four bows; not three.

A tilted windshield with plate glass. A front seat that is only 13½ inches from the floor. A rear seat that is only 14 inches. Tell that to the women of your home.

Better brakes—2 inches larger, if you please. And when you push down with your right foot you get results.

A larger steering wheel, dustproof bearings in the front wheels, all wiring encased in flexible armored tubing so that a short circuit in your ignition, or lighting, or starting is well-nigh impossible.

And each lamp now controlled by an individual fuse.

Then, too, the automatic lubrication of the engine controlled by the carburetor throttle so that the engine is getting oil directly in proportion to its load.

Any car that can do a mile in 38.1 seconds or at the rate of 94½ miles per hour as the Chalmers did on the beach at Jacksonville, Florida, which set a new time for cars of the 230 cubic inch class answers the question of speed even for the worst "fan" on the subject.

This time was made on May 4, 1917, by a Chalmers. It was of course stripped for racing purposes.

As for flexibility one need look no further. A car that traveled the highest traffic mileage ever reported in twenty-four hours through the heart of Chicago on high, or a car that webbed its way through Detroit's busy traffic at the rare low speed of 2.9 miles per hour for twenty-four hours without stopping the engine but once is a real performer.

This is just what this Chalmers did.

Come down to our show rooms and view the beauty they have drawn into this car. And then get behind the wheel for a little spin. You'll want your initials on the door inside of a mile.

All Chalmers cars are *six*-cylinder cars
